FEELS SO GOOD

Bille Burnor

tomgirlsmusic BMI

Verse

And you make me cry
And you make me sigh
When I feel music in your eyes
Thought you'd never leave
And still I can't believe it
When I feel the music in your eyes

Chorus

It must be rain - It must be from above
It feels so good - It must be love

Verse

The hardest thing I've had to do
Was to let go of loving you
When I feel the music in your eyes
Somehow in the end then I know we'll meet again
When I feel the music in your eyes

Chorus

It must be rain - It must be from above
It feels so good - It must be love

Bridge

Through the eyes of the rainbow above
I wish you the best now forever, my love

Somehow in the end then I know we'll meet again
When I feel the music in your eyes

Chorus

It must be rain - It must be from above
It feels so good - It must be love (repeat)

It must be rain – it must be from above
Feels so good

And you make me cry
And you make me sigh...

I'M NOT JULIA

Karen Mullally

Song Brewery Music ASCAP

Verse

I met you on a sunny day
You came to stay for a while in my place in LA
You drove up in style in your U Haul van
I didn't know who you were – you still don't know who I am
I'm not Julia

You moved in your stuff and
Took a good look around
The empty space in my heart
That you soon found
You told me stories about the women up North
One who left you and one you divorced
And that was Julia

Chorus

I don't know what Julia knows – I don't go where Julia goes
I don't know the girl – hey she's probably fine
I don't know what Julia knows – I don't go where Julia goes
When you look at me why does she come to mind...
I'm not Julia

Verse

In my room at night – in my bed alone
Acutely aware of someone else in my home
With a soul like a seed and a past like the wind
I wondered if it could ever begin
Like with Julia

Chorus – I don't know what Julia knows...

Bridge

Places we'd go – things we never said
All of them are alive and well and
Living in my head

Verse

Terrified to let my feelings show
Thought that you'd turn around and say
Huh, I told you so – you're just like Julia

Chorus

Now I know what Julia knows
Now I go where Julia goes
Into the past to fix the mistakes that can't be mended
And now I'm Julia – yeah, I'm Julia Oh oh, I'm Julia
Ok fine, I'm Julia

JUST A KID FROM TEXAS

Dann Rogers, Howard Smith & Steve Diamond

Diamond Street Music, Jobete Music Co Inc,

Opus Noz Music, Universal Music Corp

Verse

Tearin' up them dusty Texas roads
Like a couple of half grown kids
Livin' on love
And rock n' roll

She was more than my lover
She was my friend
Takin' things one day at a time
Never knowin' how it might end

Chorus

She was just a kid from Texas
And I loved her so
Our hearts so wild and reckless
Why she left I still don't know
Well I shouldn't go back to Texas
In the state I'm in
Cuz if I wait til I'm over this broken heart
I might never see Texas again

Verse

She used to love to drive that beat up car of mine
When we were playin'
Those low down dives
Down along the borderline

She used to sing the blues
With her eyes on fire
Like an angel in old blue jeans
Every young girls hearts desire

Chorus

Verse

Tearin' up them dusty Texas roads
Like a couple of half grown kids
Livin' on love
And rock n' roll

She was more than my lover
She was my friend
Takin' things one day at a time
Never knowin' how it might end

Chorus

THELMA & LOUISE

Suzanne Cimone aka Shazam

Sweet Surrender Productions ASCAP

Verse

Thelma & Louise wanted to take a vacation
So they made a plan and Louise made the reservation
Louise picked up Thelma after work
And Thelma left a note for her husband, the jerk, saying

Chorus

We've got better things to do
Than to stick around here taking that from you
We've got better things to do

Verse

They loaded up the car, took the fishing poles
And they headed for the mountains
With nothing on their minds but fun
They turned the music up, they let their hair down
It was Friday night and they were headed out of town, singing

Chorus

We've got better things to do
Than to stick around here taking that from you
We've got better things to do

Verse

To get to the cabin was going to take a while
So they stopped for a drink and were met with a smile
Now Thelma liked to dance and that went real well
But come time to leave, things went all to HELL!

Harp and guitar solo

Breakdown

We've got better things to do
Than to stick around here taking that from you (repeat)

Verse

So back in the T-bird and back on the road
But this time they were running
Running from the law, running from their past
Running from the moment here at last

So with one big kiss and hand in hand
With the pedal to the floor they left this land

We've got better things to do
Than to stick around here taking that from you
We've got better things to do
Than to stick around here taking that – from – you

Bille Burnor

I'll be runnin', I'll be ridin'
I'll be slippin', I'll be slidin'

But you drive me crazy
I'm goin' miles & miles &
Miles & miles from town

You 've got me hidin', my tears start fallin'
These slow trains can't get me down

But you drive me crazy
I'm goin' miles & miles &
